

The Artistic Touch

A Touch of Glaze is proud to bring you this current edition of our quarterly newsletter, The Artistic Touch. We hope you enjoy it. To share your comments or other interesting tidbits for our next issue, please click the link (www.info@atouchofglaze.com).

The rush, excitement, and entertainment of the holidays are over and it feels as though we'll never be rid of the cold and snow. Now is the time to bring some color back into your life! Creating a unique, hand-painted ceramic project in our warm and bright (our walls are red!) studio may be just what the doctor ordered. Why not take the time today to paint something just for you?!

Around our studio, we have samples of projects we have painted. Some are previous workshop projects, but many are what we refer to as Projects of the Month. Each month we paint up something interesting and either write up the instructions on the back of the object or have a written copy available for your use. Check out what's new this quarter!

Workshops

A staff member leads participants through special projects step-by-step. Pre-registration is required. There must be a minimum of 3 for the class to be held so bring a friend or two. You may bring refreshments. Maximum class size is 10. (If you wish to participate and the time is inconvenient please contact Melinda 262- 524-0231)

Kiss Me I'm Irish Mar 10 6-8pm \$5 + piece price
St. Patrick's Day is right around the corner, when everyone is Irish. Join us to paint this exuberant project that includes blending, detailing, and stamping.

Mommy and Me Mar 17 9-10am \$3 + piece price

We'll hold this class before regular studio hours to make it accessible to mothers with school age children as well as younger ones. These projects will primarily feature hand/finger printing and include other techniques for embellishing and personalization.
